“Quality First”

Starting from the selection of Raw Material to Final Finished product each process goes through tough quality inspection. Our Quality Assurance team ensures that each step of production cycle should have zero complications, so that the end product can have zero or minimum defect. Once the product is ready our Quality Control team thoroughly checks quality of each batch to ensure that our product have no post production defects and completely matches with ISO standards.

Our product is made from world class TATA CR Coils and Jindal SS Coils to ensure better Strength, Durability and Superior quality. The product has German Design & Technology, European Anti Rust Plating for better life and Shiny finish. We have in house R&D Lab for adapting & development of new technology for better performance and design of our product

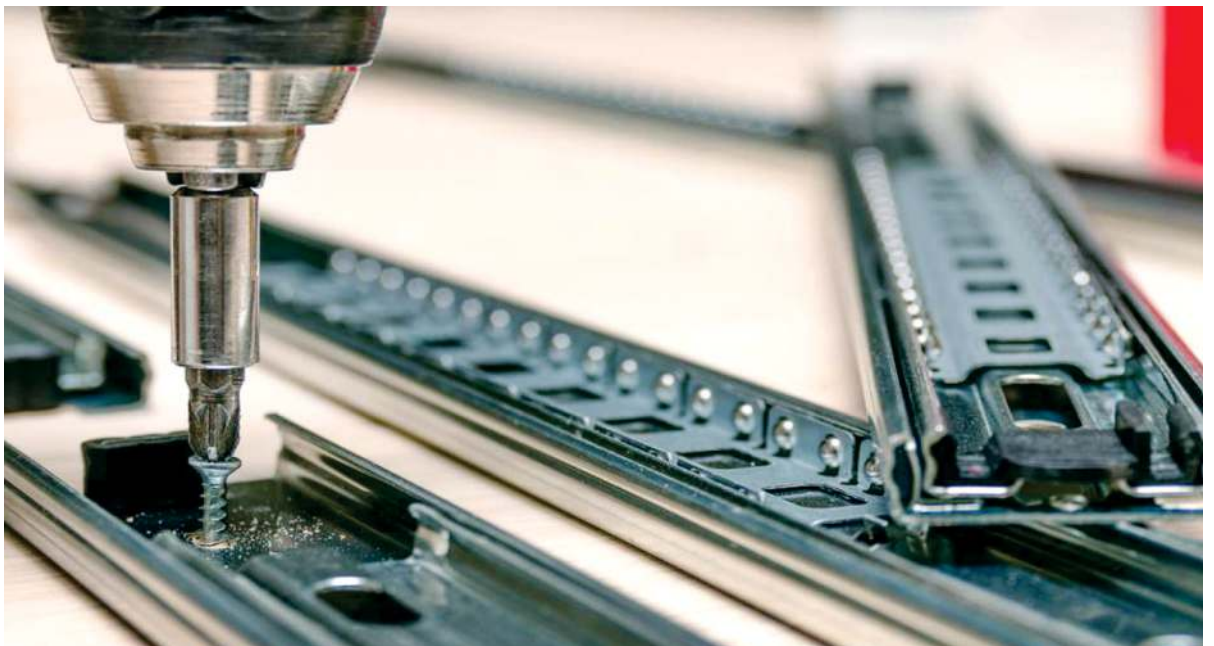

Production Cycle

Installation and Fitting Instructions

For Telescopic Channel

1. To install Khetan telescopic drawer slide, maintain 12.7 to 13.0mm gap on both side between cabinet and drawer.
2. Depress latch and remove the inner slide.
3. Fit the outer slide onto inside walls of the cabinet, you can easily get to holes through slots in intermediate slide.
4. Fix the slides parallel and tightened the screws fully to avoid gaps.
5. Fit inner slide onto the outside of the drawer.
6. Now slide the drawer with inner slide fitted on to the intermediate slides on the cabinet till the latch engages automatically.

ADVANTAGES OF USING KHETAN TELESCOPIC CHANNEL

1. Future ready, maintenance free, corrosion free.
2. Best quality in its segment, 75 gm per inch.
3. Multipurpose use in furniture, kitchen and other fittings.
4. Own manufacturing facility and shortest delivery time.
5. Made from TATA CR Coil.
6. Prompt after-sale response.
